COMPANY OVERVIEW

About Us

Established in 2003 in Zimbabwe, Rogel Security Pvt Ltd has grown into a leading provider of security solutions for both private and public sectors nationwide. Leveraging the extensive experience of our founding directors, we deliver competitive, high-quality security services.

Rogel Security is a fully licensed company by the Ministry of Home Affairs, offering a comprehensive range of services including security personnel, response & monitoring, industry-specific solutions, access control systems, surveillance systems, perimeter security, and even solar power integration.

Our commitment goes beyond physical security, as we cultivate a secure and well-managed environment through servant leadership within the locations we serve. By combining our expertise with exceptional service, Rogel Security empowers you to focus on your core business activities with complete peace of mind.

OUR PROCESS

Mission

To provide competitive, tailored security solutions that consistently exceed our clients' expectations.

Vision

To be a legendary smart leader in the security industry by exceeding our customers' expectations.

Quality Statement:

To be a legendary, smart leader in providing top notch security services to our clients whilst fulfilling applicable requirements of our interested parties through application of internationally recognised systems.

In pursuit of the above, we are dedicated to:

- Communicate this policy to all stakeholders
- Attentiveness
- Pursue our strategy.
- Reliability
- Innovation
- Continual Improvement

COMPANY VALUES

Robust

Strength of a health organisation

Organized

Superiority in provision of smart security services

Legendary

Famous in how we do business

Why Choose Rogel Security?

- **Experienced and Professional:** Our team comprises highly trained security professionals with extensive experience in various security sectors.
- **Customizable Solutions:** We tailor our services to meet your unique security needs and budget.
- **Technology-Driven:** We utilize cutting-edge security technology to provide the most effective protection.
- **Unwavering Commitment:** We are dedicated to providing exceptional customer service and ensuring your complete satisfaction.

OUR SERVICES

SECURITY PERSONNEL SERVICES

Armed Guards

For high-risk environments or those requiring additional protection, we offer vetted and licensed armed guards.

Manned Security Guards

Our highly trained and experienced security officers provide a visible deterrent and proactive security presence 24/7

Canine Dog Unit

Rogel Security's canine dog units provide an unparalleled layer of security. Our highly trained dogs and experienced handlers work as a team to deter crime, detect potential threats, and apprehend suspects. This powerful combination offers:

- **Proactive Deterrence:** The presence of a canine unit is a strong deterrent to criminal activity.
- **Superior Detection:** Our dogs are trained to detect a variety of threats, including explosives, narcotics, and firearms.
- **Rapid Response:** Canine units can quickly locate and apprehend suspects, minimizing risk and ensuring a swift resolution.

Invest in peace of mind. Rogel Security's canine dog units offer a powerful and reliable security solution for a wide range of applications.

OUR SERVICES

SECURITY RESPONSE & MONITORING

RapidResponse

We ensure a fast and effective response to security incidents with our dedicated rapid response unit.

Investigations

Our experienced investigators conduct thorough investigations into thefts, vandalism, and other security breaches.

INDUSTRY-SPECIFIC SECURITY SOLUTIONS

Retail Security

We offer specialized loss prevention programs and security personnel trained to deter theft and ensure customer safety in retail environments.

Mine Security

Our comprehensive security plans protect personnel, equipment, and resources in mining operations.

Event Security

We provide crowd control, access management, and emergency response measures for a safe and secure event experience.

OUR SERVICES

ACCESS CONTROL SYSTEMS

Fortify Your Security with Advanced Access Control Systems

Safeguard your facility and assets with our robust access control solutions. We design and implement systems that grant access based on authorized individuals, ensuring a secure environment.

Our access control systems utilize a variety of methods for identification and verification, including:

- **Biometric readers:** Fingerprint, iris, or facial recognition for the highest level of security.
- **Key cards or key fobs:** Convenient and secure access with encrypted credentials.
- **Scanners:** Read barcodes or QR codes for efficient access control.
- **Keypads or card readers:** Traditional and reliable access control points.
- Screening capabilities can be integrated to further enhance security, allowing for background checks or pre-authorized access lists.

Intruder Alarm Systems

Protect your property from unauthorized entry with our comprehensive alarm systems. Motion sensors, door and window contacts, and other detectors trigger loud alarms and can notify a 24/7 monitoring station for a swift response.

We install and monitor advanced alarm systems to deter break-ins and alert authorities promptly.

OUR SERVICES

SURVEILLANCE

Enhance Security with Our Comprehensive Surveillance Solutions

- We offer a complete suite of security solutions to meet your organization's specific needs.
- **Our surveillance services include:**
 - High-definition **CCTV cameras** for clear and continuous monitoring.
 - State-of-the-art **control rooms** designed for efficient monitoring and response.
 - **Smart Wifi Camera** - Monitor your property remotely with our user-friendly smart Wifi cameras. Enjoy high-definition video streaming, receive instant motion detection alerts on your smartphone, and control camera functions directly from your mobile device
 - **Solar Powered Cameras** - Safeguard your property with our eco-friendly solar-powered cameras. These cameras eliminate the need for electrical outlets and wiring, making them ideal for remote locations or areas with limited access to power. The integrated solar panels ensure continuous operation, keeping you protected around the clock.

PERIMETER SECURITY SOLUTIONS

Electric Fencing

We design, install, and maintain electric fencing systems that deter intruders and provide a non-lethal shock for added security. Our team ensures your system complies with local regulations and functions flawlessly.

Aluminium Walls

We offer stylish and durable aluminium walls that enhance your property's aesthetics while providing a strong physical barrier. We can customize the design and height to your specific needs.

We can integrate your electric fencing and aluminium walls with access control systems and alarms for a comprehensive security solution.

Benefits:

- Enhanced security for your property.
- Deters intruders and discourages vandalism.
- Durable and low-maintenance solutions.
- Customizable options to fit your needs.

Expertise:

Our qualified technicians ensure professional installation and maintenance. We adhere to the highest safety standards for electric fencing systems.

1100

PERIMETER SECURITY SOLUTIONS

Sensors

- **Intrusion Detection:** We deploy a network of advanced sensors to detect unauthorized access attempts at the perimeter, including fence lines, gates, and building access points. These sensors can include motion detectors, seismic sensors, and vibration sensors.
- **Early Warning Systems:** Our strategically placed sensors provide early warnings of potential security breaches, allowing for a timely response and minimizing damage.

Turnstiles

- **ControlledAccess:** Our turnstiles manage and restrict physical entry into your facility, ensuring only authorized individuals gain access. We offer various turnstile options tailored to your needs, such as optical turnstiles, tripod turnstiles, and full-height turnstiles.
- **Integration with Access Control Systems:** Our turnstiles seamlessly integrate with access control systems like key cards, biometrics, and facial recognition for enhanced security and streamlined access management.

Barriers

- **PerimeterControl:** We offer a variety of barriers to physically restrict unauthorized access to your property. These can include automatic gates, bollards, and retractable security fences.
- **Deterrent Effect:** Strong and visible perimeter barriers act as a deterrent to potential intruders, discouraging them from attempting unauthorized entry.

Security doors

- **FortifiedEntry Points:** We provide high-security doors equipped with advanced locking mechanisms and access control features to control access to sensitive areas within your perimeter. This could include bullet-resistant doors, blast-resistant doors, and high-security hinges.
- **Multi-Layered Security:** Security doors offer an additional layer of protection in conjunction with other perimeter security measures to create a robust security system.

SOLAR POWER SOLUTIONS

At Rogel Security, we understand the importance of sustainability. That's why we offer a comprehensive range of solar power solutions to not only enhance your security but also empower your property with clean, renewable energy.

Rogel Security's Solar Power Solutions Include:

- **Solar Panel Installation:** Our experienced technicians will assess your site and install solar panels optimally positioned to maximize energy production.
- **Battery Backup Systems:** We incorporate high-capacity batteries to store excess solar energy, ensuring uninterrupted security system operation during low sunlight periods or power outages.
- **System Monitoring and Maintenance:** We offer comprehensive monitoring and maintenance services to ensure your solar security system operates at peak efficiency.

Applications of Solar Power Solutions:

- **Homes:** Power your entire home or specific appliances like lighting, refrigerators, and electronics.
- **Businesses:** Reduce energy costs and project a sustainable image for your company.
- **Off-Grid Applications:** Provide electricity for locations with limited or no grid access, such as remote cabins or agricultural buildings.
- **Water Pumping:** Solar power can be used to operate water pumps for irrigation or remote water supplies.
